

CAREER SUMMARY

Senior Microsoft Dynamics 365 Developer with 16 years of hands-on experience designing, customizing and integrating enterprise CRM solutions. Since 2016 I have led Dynamics 365 development for the Israel Courts Administration, modernising legacy CRM 4.0/2011 systems, introducing Git-based workflows and streamlining case-management for thousands of end-users. Deep expertise in C#, .NET, Dataverse, SQL Server, HTML5/JavaScript; certified Microsoft Specialist in Extending Dynamics CRM 2013, Customization & Configuration (2013). Known for clean architecture, performance tuning and mentoring teams to deliver secure, maintainable code that powers mission-critical government processes.

Recognized disability (wheelchair user)

Extending Microsoft Dynamics CRM 2013

2014 - 2014

Microsoft (IA2448-EF7112)

Microsoft Specialist: Extending Microsoft Dynamics CRM 2013

Microsoft Dynamics Customization and Configuration in CRM 2013

2014 - 2014

Microsoft (DF7L8A-0D4569)

Microsoft Specialist: Microsoft Dynamics Customization and Configuration in CRM 2013

SIDE PROJECTS

EV Charger Notifier – Telegram Bot (C#, Azure SQL) - Built an end-to-end Telegram bot that automatically alerts electric-vehicle owners when charging is complete and politely requests them to free the parking spot. Implemented with the official Telegram Bot API, C#, and Azure SQL for state management; supports real-time push notifications

Mini Card-Flip Game (HTML, jQuery) (<https://mihadov.github.io/avatar-cards/>) - Developed a lightweight browser game with smooth CSS-based flip animations and a fully responsive layout, delivering the same polished experience on mobile and desktop—all using plain HTML and jQuery. Added a one-click share feature so players can instantly invite friends and spread the game.

DiraBeAnahaCalculator (HTML, JS) - Dynamic payment schedule table covering the first three years of an apartment-construction project under Israel's Dira Be-Hanacha (discounted-housing) programme.
